OBJECTIVE	Computer Engineering student seeking opportunities to apply technical knowledge and leadership skills through hands-on projects, collaboration, and continuous learning in innovative environments
EDUCATION	Texas A&M University College Station, Texas <i>Bachelor of Science in Computer Engineering, May 2027</i>
COURSEWORK	Program Design and Concepts Data Structures and Algorithms Digital Systems Design Computer Architecture and Design Signals and Systems Electrical Circuit Theory
SKILLS TECHNOLOGIES	C++ Python Java HTML Excel Adobe Microsoft Office Matlab Three.js VS Code Linux Blender Circuit Simulation PCB Design
PROJECTS	Blender Engineering Workspace Scene (Ongoing Portfolio Project) - Designed and modeled a detailed engineering workspace using Blender to showcase CAD-style visualization skills - Integrated models into a web-based portfolio using HTML and Three.js for interactive rendering - Applied precision modeling and lighting to create realistic assets, including lab tools, test equipments, and workstations NASA Blue Skies Competition Texas A&M University <i>SOLARA Think Tank Participant, Jan 2024 - March 2025</i> - Researched and presented aerospace solutions for NASA challenges through the development of a Stratospheric Agricultural Blimp System to harvest water and deliver it to arid farmland - Designed schematics, deployment strategies, and material studies to optimize hydrogen safety, structural durability, and environmental impact - Led visual/technical documentation and collaborated with a multidisciplinary team to integrate propulsion, automation, and water harvesting technologies
WORK	Student Success Program Coordinator Texas A&M University <i>Hullabaloo U Mentor, August 2024 - May 2025</i> - Led over 30 first year engineering students through academic onboarding, curriculum navigation, and career development activities - Designed and delivered interactive training sessions to improve collaboration, problem-solving, and project management skills Content Creator / Brand Collaborator Brands: HERA Beauty, Dr. Nineteen Skin, VT Cosmetics, Numbuzin, Abib 2023 - Present - Collaborated with skincare and beauty brands to produce promotional content across TikTok and Instagram, highlight product benefits and usage - Created visually engaging videos and posts that increased audience interaction and brand visibility
ACTIVITIES	Rho Delta Chi Sorority Texas A&M University <i>New Member President, Jan 2025 - May 2025</i> - Manage internal communications, member development, and administrative records for a multicultural sorority promoting sisterhood, service, and academic excellence - Collaborated with executive board to plan events, maintain chapter compliance, and strengthen chapter cohesion Women's in Robotics AUV (Autonomous Underwater Vehicle) Texas A&M University <i>Member, Aug 2024 - Present</i> - Designed and integrated electrical systems for autonomous underwater vehicles, including power distribution and sensor interfaces, assembly of PCBs, wiring harnesses, and underwater-rated content - Collaborated with software and mechanical teams to support control systems, signal processing, and hardware communication
